Chestnut Plaza and Chestnut Plaza River Connection

Project Update - Notice of continued trail detour.

Construction of the Chestnut Plaza River Connection and Chestnut Plaza is complete. At this time the **City House Renovation** project is under way. Due to unforeseen conditions, this project will not be completed until next spring (2009). Until then, Samuel H. Morgan Trail users will have to continue to use the current detour through the Upper Landing or to connect to the Shepard Road trails to connect to the Chestnut Plaza or to re-connect with the Sam Morgan Trail on the east side of the City House Project.

1. View to the East, upriver from the completed Landing toward Downtown.

2. From the completed Chestnut Plaza River Connection, view West toward the 'City House'.
